## Disintegration

Long time state of mind, ain't no friend of mine,
sitting in the wreckage of everything left behind - Isolation

Always last, never first, rarely good, often worse,
how long do I need to keep on living out this damn curse - Desperation

Diversion, Subversion
Putting out the light within

Disturbing thoughts I never dreamed I'd have started coming in
Getting more familiar than I know my own next of kin - Alienation

At first just a few bad ideas that I mused, slipped on by got inside
& my mind was compromised - Infiltration

Confusion, Illusion
Putting up, wearing thin

Starting, Stopping
Giving up, giving in

Scarred, tattered, torn, battle worn, can't conform
to the lies they surmise & provide to us anymore - Sublimation

Feeling lost, confused, so afraid, disabused
from the things that I once thought I knew to be true - Desecration

Diversion, Subversion
Putting up, wearing thin
Confusion, Illusion
Putting out the light within
